**Processing Requirements For Raw Milk Products.**

I wish to support the sale of Raw Milk. I object to the FSANZ making any changes that would restrict the sale of raw milk.

My family has been drinking raw milk for the past year and we all feel healthier. We have not suffered any bad effects from drinking raw milk. In fact this winter we have not had the usual cold and flu's that many other people have suffered. I put this down to being healthier as we have received the benefits of healthy natural milk that has not been altered by pasteurisation or homogenisation.
