Subject: Submission re Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products
Follow Up Flag: Follow up
Flag Status: Blue

To Whom It May Concern:

I am writing to express my support for the legalization of raw milk production and sales for consumption. I enjoy drinking bath milk because of the flavour and nutritional benefits - organic raw milk really tastes wonderful! I also believe that cheese producers who wish to use raw milk in their products should be given the opportunity to do so as it may also improve the flavour of cheeses and to stymie such possibilities would be a shame. 28 US states allow sales of raw milk and considering the negligible risk when milk has been correctly processed, I believe as consumers we have a right to choose.

Yours truly,
Michelle Yang
