Proposal P1007

Shane Schilder
75 Fenton Ave
Christies Beach
5165 SA
08 81865546

Dear Sir/ Madam,

We live in a first world country where our food standards are one of the highest in the world.

I grew up in South Africa where we drank raw milk from birth.

I would like the same for my little children here in Adelaide.

Please, we have the resources and competencies to make it purely safe, and the research proves it can be done to comply with all FSANZ requirements.

This is the milk that so many generations have thrived on.

I hope that the new legislation can take all of this on board and grant that raw milk and cheese can be put back in our supermarket shelves.

Yours Sincerely
Shane Schilder
