Subject: Proposal P1007 Discussoin Paper.

My Name is Joy Stone. Address RMB 5256A Heathcote Victoria 3523.

I enthusiastically support the campaign to have raw milk (and other dairy products) available from retail outlets in Australia.

My family regularly eats raw dairy products from our own cow.

Raw dairy products, from a healthy grass fed herd, provide optimum nutrition because heat sensitive enzymes and other factors are not destroyed.

There are synergistic effects in whole foods (and not only milk) which mean that our bodies assimilate more nutrition from food which has not been processed.

I would like to see certified raw milk available at retail outlets in Australia, so city-dwellers may take advantage of its health benefits if they so desire.

Yours Truly,

Joy Stone.
