Hello

i am fully in support of making raw milk available to consumers.
and in giving the corresponding aid to farmers to produce and sell raw milk in commercially viable quantities.

Please act to ensure that this milk is of the highest standard and free of diseases, and that the cows producing raw milk are well looked after (ie , able to eat grass, free to roam, not in pens all day)

I have drunk raw milk for several years now and much prefer it's taste and nutritional benefits over pasteurised *milk*.

Thankyou
Ben Morgan
