Re; **Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products**

Please accept this as my vote **in favour** of safely produced natural raw milk.

If it is done in this manner then the issues that arose from it being banned should no longer be relevant. There are many important nutrients that are destroyed in the process of producing milk and this is a sad thing as they are half the reason people drink milk.

Why ban something when we can quantify the safe measures and put them in place. Allow people the choice of having safe raw milk and knowing that they can go to a producer that adheres to the minimum standards no matter how high.

I currently drink goats milk and the farmers are advocates of Australia wide standards and will have no issues with meeting these.

Below are the details/requirements of voicing your vote to FSANZ. Please note that if you only follow the below guidelines and write a brief, 1 paragraph letter (ie I am in favour of safely produced, natural raw milk), that is enough to make a difference for the Real Milk Campaign. THIS SHOULD ONLY TAKE YOU A FEW MINUTES::)

Details: Submissions must be made in writing and should clearly be marked with the word 'Submission':
Send to: or hard copies to the Standards Management Officer at PO Box 7186, Canberra BC, ACT 2610.

Quote project number: Please include: full contact details including: position, address, telephone number, fax and email address. And in the case whereby you are submitting on behalf of an organisation, you need to advise the level at which the submission was authorized.

Submissions may simply state your views and opinions, or take the form of detailed scientific or technical documents that discuss or support your position in relation to the application or proposal. If you only have a few minutes, a 1 paragraph letter or email is fine.
