In response to the proposed, Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products

I should like to mention as an adult of some 57 years I have every right to consume safely produced raw milk/ including all it's by products.

Including and not limited to Butter/ Cheeses/ yougurts/ whey products ect ect.

I should, humbly request that all members do their own research.

YOUR DECISION SHALL DEPRIVE THE GREATER MAJORITY OFF THEIR RIGHTS.

How MANY people are there on this panel or board???

WHO has empowered you, with the RIGHT to Control the food choices of others, that I am sure are capable of making rational decisions,

and indeed have a right to life to make so on their own behalf.

With the greatest respect, look at big pharma, transfats, soy, margarine, Rockafeler, petrochemical market, cooking oils, vaccines, chemtrails etc, etc.

Again with respect, by ALL means ENFORCE mandatory labelling of said products. So the least well informed of the general populace may be aware.

Your's
