GOVERNMENT IN-CONFIDENCE

Dear Network Officers and FSANZ Incident Response Team,

Please see below a notification from NSW DPI regarding Ash and Sons egg farm results of testing, and notice of an additional Trade and Consumer recall for eggs from this facility:

Dear Network Members,

Monitoring by NSW DPI confirmed Salmonella Enteritidis on the Ash & Sons egg grading facility environment. The facility graded eggs that were received from an SE affected farm. A biosecurity order is being issued and the business is conducting a consumer and trade recall.

Distribution details will be provided in the recall notice. The recall sponsor advises the eggs were sold in both 'dozens' and 'catering packs' in the Sydney area.

Please contact s 22 if you require additional information.

Please also note that we will provide you with further information with regard to the recall tomorrow, along with a full recall report from Ash and Sons and a link to the recall notice when published on the FSANZ website.

Kind regards,
