GOVERNMENT-IN-CONFIDENCE

Dear Network Officers and FSANZ Incident Response Team,

OzFoodNet have requested the following advice be circulated to the Network:

Good afternoon

The lead jurisdiction (NSW Health) for MJOI 2019-0001 Locally-acquired *Salmonella* Enteritidis has received a request to breakdown the hospitalisation presentation data for this outbreak by those who presented to ED vs those who were admitted. [REDACTED]

[REDACTED]
s 45/ 47B/ 47E/ 47G

[REDACTED]
In accordance with the MJOI guidelines I would like to ensure that the Situation Reports stay the central and coordinated point of information for all agencies involved in the MJOI. This is important to ensure that we all have consistent information and also minimises the burden on the lead jurisdiction.

[REDACTED]
Also, a reminder that National Coordinator for the MJOI (me) should be the first point of contact for any enquiries from agencies outside of OzFoodNet. This helps to ensure that everyone has the same information.

Kind regards
