Food Standards Australia New Zealand
PO Box 10559
The Terrace
Wellington 6036

1 February 2024

Tēnā koe,

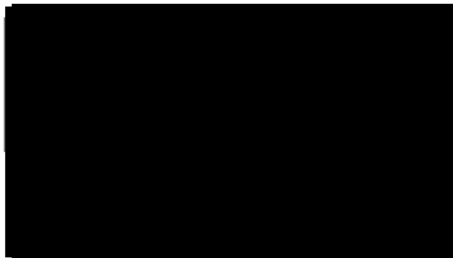

A1280 - Food derived from herbicide-tolerant and insect-protected corn line DAS1131

Thank you for the opportunity to comment on this application.

New Zealand Food Safety (NZFS) agrees with FSANZ's safety and risk assessment that concluded that no potential public health and safety concerns have been identified in the assessment of herbicide-tolerant and insect-protected corn line DAS1131, and that food derived from corn line DAS1131 is as safe for human consumption as food derived from conventional corn varieties.

NZFS supports the draft variation to amend Schedule 26—3(4) of the Food Standards Code, to permit the sale and use of food derived from herbicide-tolerant and insect-protected corn line DAS1131 as a genetically modified food in accordance with Standard 1.5.2.

Nāku noa, nā

New Zealand Food Safety
