Submission Text:	<p>We make compost, use compost, share compost. This is a living thing. We object to further sterilisation of our food and our food sources. Sanitising our environment - from irradiation to fertilisers and chemicals, is not the answer to the imbalances we have created in our environment. Look at the science - the extreme rise of chronic illnesses in humans and other animals, has increased since the introduction of</p>

soil destroying chemicals and other processes. We can find
another way.
