Subject: Submission on A1193 Irradiation of all fresh fruit and vegetables

To whom it may concern,

I have grave concerns with the proposed changes to allow 26 fruits and vegetables to be irradiated. The micronutrients in vegetables are already reduced due to excessive tampering and I don't believe that it will do anything expect further reduce them. I don't want my fruits and vegetables to be irradiated and I'm sure that there are thousands more who would feel the same way. Most wouldn't even be aware that the changes have been proposed.

Please don't further tamper with our food!

Regards,
