I strongly believe that hemp seed should be available for food, medicinal and any other use we can achieve from this amazing plant.

We have been denied this nutritious and sustainable plant for too long.

Yours truly

Dear standards office management,

My name is Dianne Maree Mancell, my address is 2120 Bungawalbyn Rd Via Coraki, my home land line is 02 66619146 & my mobile is 0431499124. I have been an advocate for cannabis being legal & readily available for medicine, food, industrial uses & recreational aspects for those that benefit from that.

I have a rare brain tumour called a intracranial facial schwannoma, diagnosed in 2006. The oil & tincture that I use, helps me greatly with the constant head & facial spasms I suffer from. I try very hard not to use an pharmaceuticals but at times do have to resort to this.

I would like to be available in any way to support the cause, so do not hesitate to contact me personally for any endorsement or assistance I can provide.

Yours sincerely

Dianne Maree Mancell

Dear Submitter

Thank you for your submission in relation to the Consultation Paper on Application A1039 - Low THC Hemp as a Food.

However, you have not provided sufficient contact details to allow us to enter you into our contacts database. Providing us with this information helps us verify that your submission is genuine - as we have had problems with people in the past sending bogus comments from email addresses without permission of the owner.

Please fill out the attached 'Contacts Form' and return via this email address so we can formally acknowledge your submission.

Please note that the FSANZ website provides a convenient method of monitoring developments in relation to FSANZ activities. Information relating to the status of applications and proposals to vary the *Australia New Zealand Food Standards Code* is accessible for applications at:
