Dear Sir/madam

**P1031 – Allergen Labelling Exemptions**

Please take this letter as support of the proposed exemption in P1031 to exempt alcohol from whey (and products thereof) from requiring an allergen declaration. We would want the exemption to cover distillates from whey and further derivatives of that distillate.

Such is based on our earlier correspondence to FSANZ, Cressey et al 2010, and the precedent in the EU.

Yours faithfully  
**Australia & New Zealand Distillery Limited**
