Subject: Submission to Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products

Submission to Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products

I would like to voice my support for raw milk products being made available to the Australian public. I personally have limited tolerance to cows milk and when I have had the opportunity to consume fresh milk from the cow and raw milk cheeses when overseas I note a significant reduction in symptoms. My whole family have these intolerances - allowing raw milk products to be available would improve our health and nutrition and that of the whole community.
