Subject: submission: for Proposal P1007 - Primary Production and Processing Requirements for Raw Milk
Follow Up Flag: Follow up
Flag Status: Blue

I wish to express my support for the sale of raw milk and cheese to be legalised.
I believe I should have the right to buy raw dairy products if I so choose.
At present I am able to purchase and consume alcohol or smoke tobacco products,
why then am I not able to purchase and consume raw dairy products?

Raw dairy should be available to who wish to consume it.

Kind Regards,
