### **To Whom It May Concern,**

*Re: - Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products.*

I am writing to advise that I oppose the above proposal as it does not allow my family or myself to make an informed choice.

Advances in refrigeration, our knowledge of food hygiene and storage mean that we are now better informed than we ever were about the advantages and disadvantages of such practices. I feel that we are having a right denied to us with the very premise of this proposal.

Our grandparents did not suffer unduly from such products in their "*raw*" and "*natural*" state. The question I ask is why is big industry so concerned that it has to lobby to take away yet another of our rights. As a concerned parent I am interested in exactly why they must dictate such basic rights to us.

I sincerely wish that this objection is given recognition.

Kind regards,
