Dear reader,

With this letter I like to let you know that I want the sale of raw milk legalised. I want to have the choice in what I can consume, and raw milk has lots of health benefits which outweigh the risks. It doesn't make sense that there are so many harmful products on the market which are allowed to be sold, and raw milk isn't. (Thinking of tobacco, alcohol, painkillers etc)

Thanks,

Irene Boumans
