To whom it may concern,

Re: Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products.

I and my family are interested consumers of dairy products who wish to let you know that we are in favour of the availability of safely produced, natural raw milk and raw milk products such as yoghurt and cheese. From our research we are convinced of the superior nutritional status of raw milk and have the testimony and good health of the past 4 generations of our families to reinforce the research we have discovered.

Yours faithfully
Heidi and David Jones
