Subject: Submission re Proposal P1007: Primary Production & Processing Requirements for Raw Milk Products.

Dear Sir/Madam

I request that Food Standards Australia and New Zealand (FSANZ) take deliberate action to find a way for producers of raw fresh milk to legally sell their product to me. As a lifetime consumer of raw milk – I was reared on a dairy farm - I believe I am proof that appropriately handled the product safely provides me a suitable and desirable level of nutrition.

I particularly commend review of the legislation, SB 201 "The Fresh Raw Milk Act of 2008" which is, at the date of this writing (7 September, 2008), before the Governor of the State of California, USA for signing.

It appears to be a model that meets the genuine need for Government to provide health oversight within the food sector, doing so without eliminating the freedom for individuals to knowingly choose what they place into their own bodies.

Regards

Bruce Ward
