List of proposed amendments – Proposal P1065

Code Revision – 2025 Amendments (Compositional requirements for Special Medical Purpose Product for infants and other miscellaneous amendments)

STANDARD 1.1.2

- 1. Location:** Subsection 1.1.2—2(3) (subparagraph (a)(i) of the definition of *permitted flavouring substance*)

Issue: Edition 31 (2024) of the Generally Recognised as Safe (GRAS) lists of flavouring substances has been published. The definition needs to be amended to include a reference to that edition.

Response: Amend the definition of *permitted flavouring substance* to update the reference to that publication.
- 2. Location:** Paragraph 1.1.2.—8(2)(d)

Issue: The paragraph contains a formatting error.

Response: Amend to correct the formatting error.

STANDARD 1.2.8

- 3. Location:** Subsection 1.2.8—6(1)

Issue: The subsection contains a formatting error.

Response: Amend to correct the formatting error.
- 4. Location:** Paragraph 1.2.8—6(4)(d)

Issue: The paragraph contains a formatting error.

Response: Amend to correct the formatting error.

STANDARD 2.9.1

- 5. Location:** Paragraphs 2.9.1—7(1)(d), 2.9.1—7(1)(f), 2.9.1—7(2)(a), 2.9.1—34(1)(d) and 2.9.1—34(1)(f)

Issue: The fatty acid scientific nomenclature should be ‘:’ instead of ‘to’. This is consistent with international regulations and generally accepted fatty acid nomenclature.

- Response:** Amend to correct fatty acid scientific nomenclature.
6. **Location:** Section 2.9.1—31 (heading)
Issue: The term “products” in the heading should be “product”.
Response: Amend to correct the term.
7. **Location:** Subsection 2.9.1—34(2)
Issue: Subsection 2.9.1—34(2) sets compositional fat requirements for special medical purpose product for infants (SMPPi). The requirements currently stated in that section are not consistent with those elsewhere in the standard. They should be identical to those set by paragraph 2.9.1—7(1)(a) for infant formula and for follow-on formula. The [Proposal P1028](#) (P1028) 2nd CFS sought public submissions on this change being made to the compositional fat requirements for SMPPi. The P1028 2nd CFS and Approval Report explained publicly that this change would be made and why. See for example, page 60 of [SD1](#) of the P1028 Approval Report. However, these amendments were inadvertently omitted in the P1028 variations to the Code.
Response: Amend 2.9.1—34(2) to include the missing compositional fat requirement for SMPPi.

STANDARD 2.10.4

8. **Location:** Section 2.10.4 (Note)
Issue: The definitions of *cocoa*, *decaffeinated coffee*, and *decaffeinated tea* in the Note are incorrect. The Note refers to section 1.1.2—3 and so these definitions need to be amended to be as per their definitions in section 1.1.2—3.
Response: Amend to correct the definitions of *cocoa*, *decaffeinated coffee*, and *decaffeinated tea* as per their definitions in section 1.1.2—3.
