Dear Foodstandards,

Christian Greetings in the precious Name of our Lord Jesus Christ.

I stand against the irradiation of foodstuffs. In a country like Australia the population is entitled to fresh, locally or at least Australian-sources naturally grown, preferably organically grown food. We do not need to compete with the rest of the world or become captives of psuedo "free trade" agreements.

God's Word is Spirit and it is Life in whatever form of creation. When you add to or take from or tamper with it it is no longer His Word and Life, but death.

Yours sincerely in the love and service of our Lord Jesus Christ

Your Brother-in-Christ,

Anthony Grigor-Scott
