Re: Application A1042 - Food derived from herbicide-tolerant Corn line DAS-40278-9

Dear FSANZ,

I reject the assessment of Application A1042.

The FSANZ mission is: *To protect, in collaboration with others, the health and safety of people in Australia and New Zealand through the maintenance of a safe food supply.*

In the interests of the future wellbeing of the Planet and all that live on it I request that the Application A 1042 is rejected on the grounds that we do not know about the unintended effects of this form of Genetic Manipulation .

Please refer to 'Unintended Effects of Genetic Manipulation' A Project of The Nature Institute, USA. (Project Director: Dr. Craig Holdrege)

Yours sincerely,

Isla Burgess
