**Subject:** Submission on A1193 irradiation of all fresh fruit and vegetables

To whom this may concern,

I write to oppose the current plans of the Qld Gov to mandate irradiation of all fresh fruit and vegetables.

Research confirms irradiation forms volatile toxic chemicals such as benzene and toluene, which can cause cancer and birth defects.

Further, experiments in lab animals fed irradiated food, caused stunted growth.

To impose such mandated laws on these foods, may have disastrous health effects on this generation, and the generations to come.

Thank you for your consideration to this submission.

Kindest regards,

[REDACTED]
