Thank you for the opportunity to comment on this proposal. Please note that this submission is only in relation to the proposed amendments that apply to New Zealand.

New Zealand Food Safety has only one comment to make:

For [22], the URL listed in Standard 2.2.3 Note 3 under “3. New Zealand common, Maori, and scientific names for fish species are available at” works, however redirects to the following URL: <https://www.mpi.govt.nz/food-business/seafood-processing-storage-testing/fish-names-labelling-requirements/>. As such, you may choose to use this revised URL.
