12. **Submission Text:** With regard to lifting the restriction on companion animals at outdoor dining areas I believe this is necessary to boost my local economy which is suffering a decline in tourist numbers. It is quite common for people travelling around in caravans and motorhomes to have their pet dogs accompanying them. Restricting access to outdoor dining areas affects local businesses. Potential clientele is lost and dog owners are made to feel second class. Business owners have the choice of appealing to different socio-economic groups e.g families, retirees etc so they should be allowed to chose if they wish to cater to dog owners. The public should be allowed to dine with or without dogs, children etc by selecting a venue that meets their needs.
