**12. Submission Text:** I want to be able to dine or have a coffee with my little dog which would not upset anyone with her sitting under the chair. People smoke, spit and discard cigarettes butts all over the place which i am more concerned about other than a dog. My dog wont be going into the kitchen to prepare my meal or anyone others so i dont see what the problem is. There are more germs on the average hands of people then dogs for gods sake half of all people don't even wash their hands after using the toilet, Ban those people not dogs. It should be up to the establishment to decide to have dogs dining with them or not.
