Canberra BC ACT 2610

Dear Standards Management Officer

RE: Safe Food Production Queensland Submission on *Proposal P1025 – Code Revision*

I refer to FSANZ's call for submissions on *Proposal P1025: Code Revision*.

Safe Food Production Queensland (SFPQ) recommends that, rather than continue with the full review of the drafting of Chapters 1 and 2 of the Code, resources would be better utilised to address specific matters that have previously been raised by food regulatory agencies. In particular SFPQ would like to see longstanding definitional issues addressed, as well as amending the Code to bring about greater synergies across all elements of the Code, including Chapters 3 and 4.

[REDACTED]

Yours sincerely,

[REDACTED]
