Re: Code Revision – Consequential & Corrective Amendments II

FTA Australia has reviewed this [Proposal](#) and endorses the following comments of the Technical Sub Committee:

The Committee reviewed this document and agreed with the proposed amendments but added one comment:

1. Item [4] of Proposal P1040, which mentions the relationship of Standards 1.2.7-12 and 1.2.12-4 (i.e. 1.2.12 in total) is very poorly written and therefore difficult to comprehend. It is suggested that the original Notes and the amended Notes both be reproduced in full, so that the change/s can be easily seen and understood. The status of both Standards should be made clear as to what happens on 19 January 2016, which date, incidentally, is only inferred and not actually mentioned anywhere in this context. I.e. the 'Note in 1.2.7-19 will be removed on 19 January 2016' should be added to the beginning of the Note and all is then clear.

Attempting to view on-line these two versions is difficult.

If there are any queries regarding this submission, please contact the Technical Secretary, [REDACTED]

We would appreciate being maintained on the circulation list for any changes in this matter and to receiving notification of the next step concerning this [Proposal](#).

Yours sincerely,

Del Teesdale
